

Public Notice Cemetery Housekeeping

Please be advised that the Town of Rocky Mountain House will be working towards tidying up the cemetery to meet the bylaw regulations. This means if you have any mementos on your loved ones plot(s), please remove them unless they are attached to the monument (excluding fresh flowers). This will allow for our maintenance crews to provide better service for cutting, snow removal and they won't accidentally damage your items. Trees and shrubs will also be removed. Everyone has a different idea of what makes a cemetery pleasant, so by creating an environment that is similar for all plots it will help to provide a peaceful area for everyone to visit.

The Town will be tidying up any remaining items after October 15, 2014 and will store these items for 30 days.

To further improve the overall appearance of the cemetery, we would like to encourage families that have monuments that are leaning, tipping or damaged to contact the Town Office or the Funeral Home in the next 90 days to arrange for straightening the monument or removing damaged grave covers. The families would be required to sign a waiver for this to be done and there would be no cost if the Town is contacted by November 1, 2014.

We will attempt to contact families by letter if we have their information on file, but this is proving to be difficult, we encourage you to help us spread the word. We will be placing a public notice in the Mountaineer. Thank you for your help.
